

## Aspen View Veterinary Hospital Important Announcement

Dear Valued Clients and Friends,

It is with both happiness and sadness that we are announcing our retirement. Over the last 35 years, you have entrusted us with your beloved pets. We cannot fully express what that has meant to us. You have become friends and we will always remember our many laughs and a few tears.

We are retiring from a profession that we truly love with patients we will remember. We have taken care of generations of your pet family from that first puppy visit through their senior years and that is the greatest compliment we could receive. We have given our best every day and have witnessed so many changes and improvements in veterinary care. The work has been fulfilling and rewarding and even when we could not deliver good news, we always tried to respect you and your concerns with empathy.

We are fortunate to be able to retire with good health and look forward to pursuing things we love to do. We leave the practice in good hands and hope you continue your relationship with Aspen View in the capable and loving care of Dr. Birkholz, Dr. Savage and Dr. Robards. Please give them the support you gave us; we know they will take very good care of you and your pet family.

We will miss you. Thank you for your support, friendship and trust.

Sincerely,

Dr. Ken Chmelka, DVM and Dr. Doug Schrepel, DVM
